Career Overveiw

Hello I am Cole Gamma

I started driving asphalt Go-karts at 7 years old. In the lowest division moving up to the mid-sized karts Early the next year driving the first Praga JR1 kart in CA. After doing well on the Praga chassis I moved to Ital-Course which is the chassis I used for the longest. Before moving up to a full-size chassis which I used a Birel & Tony kart for the rest of my time with go-karts Then I moved to the dirt in 2019 winning my first ever off-road race after that race I got to race a JR2 trophy kart halfway through the season and at the start of 2020 I drove the mod kart which was not a very good year until 2021 when I started racing UTVs finishing 3rd in the youth championship and 2nd in the pro class but 2022 is where I dominated the UTV class winning 7/9 Races in the northern series and finishing on the podium 8/10 races in the southern series. Just short of the southern championship by one point now I am looking forward to getting back to the asphalt.
